LAYERED METAL PRO FILM

Designed for modern vehicles, the Metal Films Series delivers a perfect balance of appearance, protection, and performance.

High-reflective metallic layers offering strong solar heat rejection, striking exterior gloss, and customizable light transmission. Ideal for users seeking bold aesthetics and effective shading.

High Clarity	Maintains excellent transparency and visual clarity
Oxidation Resistance	Protective PET layers prevent metal layer from oxidizing over time
Durability	Multi-layer lamination ensures long-lasting performance and consistent appearance
